

Like good news
when you're waiting—they satisfy!

You can hardly wait—something big is going to happen. And then the good news comes—it does satisfy! That's the identical thing Chesterfields do for your smoking—they satisfy!

And, yet, Chesterfields are mild!

It is this combination of mildness and "satisfy" that is giving smokers a new kind of enjoyment.

No other cigarette can offer you what Chesterfields do—because no cigarette maker can copy the Chesterfield blend! Try Chesterfields—today!

They SATISFY!

—and yet they're MILD

The Newest Jabot

Out of 175 designs for fall neckties the handsome jabot here illustrated, originated by the Association of American Neckwear Manufacturers, was chosen for its chic effect. The

Fabric is white net, daintily embroidered in tiny daisies, the high standing collar being attached to the jabot by narrow black moiré ribbon.

String Bean Salad.
String the beans and boil whole. When tender and cold slice each lengthwise and place them carefully crosswise on a platter. Season them an hour or two before serving with a marinade of a little pepper, salt, three spoonfuls of vinegar and one spoonful of olive oil. Just before serving drain off and mix with salad dressing.

Liver Trouble.
"I am bothered with liver trouble about twice a year," writes Joe Dingman, Webster City, Iowa. "I have pains in my side and back and an awful soreness in my stomach. I heard of Chamberlain's Tablets and tried them. By the time I had used half a bottle of them I was feeling fine and had no signs of pain. Obtainable everywhere.—adv.

Matty's Record With Giants.

Christy Mathewson, the new manager of the Cincinnati Reds, went to the New York Giants in 1900 from the Cincinnati club in exchange for Amos Rusie.

Matty's start with the Giants was not a brilliant one, as he lost all three games that he pitched in 1900. But in 1901 he started out on his wonderful pitching career, which enabled the New York club to win five National league pennants and a world's championship.

In his seventeen years with New York Matty won 371 games and lost 190 for a grand average of .693. His best season was in 1906, when he won twenty-five games and lost six for an average of .806.

During his career with the Giants the "old master" struck out 2,188 batters, issued 782 passes to first and 4,282 hits were made off his delivery.

Winning With Discards.

Apparently the way to win a pennant is to go out and pick up ball players other clubs can't use. Stallings won that way in 1914 with Gowdy, Rudolph, Smith, Evers and Mann. Moran accomplished the same stunt last year with Lemare, Stock, Niehoff and Whitted. Now Brooklyn is leading with Marquard, Cheney, Coombs, Morrey, Olson, Meyers—all major league discards.

McInnis Not Batting To Form.

Stuffy McInnis, the Athletics' star first baseman, is down in the doleful dumps of a real batting slump. For six years, including last year, he has batted well above .300. This year so far he has been hitting under .300. He is not the only one of the older stars who have hit the slide this year. His former teammates of that \$100,000 infield also belong to the Slump Bros' aggregation.

Fair Drivers May Race.

Promoters of the Labor Day auto races at the Sheepshead Bay speedway, New York, are seriously considering staging a race for women drivers. Mrs. Nina Boney, a fair speed demon from the south, has issued a challenge to women racers, and she hopes that a race for her sex can be arranged.

Cure for Cholera Morbus.

"When our little boy, now seven years old, was a baby he was cured of cholera morbus by Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Mrs. Sidney Simmons, Fair Haven, N. Y. "Since then other members of my family have used this valuable medicine for colic and bowel troubles with good satisfaction and I gladly endorse it as a remedy of exceptional merit." Obtainable everywhere.—adv.

Banana the Greatest Fruit.

Mr. Gustave Loblanc, a Costa Rican, speaking at the Queen's Hotel recently about fruit problems in Central America, stated that every year the city to which he belongs, Port Limon, sends out 8,000,000 bunches of the best commercial fruit grown in the tropical lands of Central America.

"In the district surrounding Port Limon there are about forty plantations, each one with its manager, and each covering an area of from 100 to 500 acres.

"The managers of these plantations are chiefly Americans, though there is a sprinkling of English, German and native managers.

The Costa Rican Railway, the Northern Costa Rican Railway, and numerous branch lines have been built for the purpose of developing this great fruit zone, the working of which is becoming more and more profitable every year.

"The banana industry is perhaps the most important of the fruit industries.

"A good banana plantation will yield as much as 500 bunches for every two and one-half acres, and sometimes as many as 750 bunches are raised. Squads of negroes are set to work cutting down the banana bunches and a squad cuts as a rule 300 bunches a day, for which the negro receives about 3 or 4 cents a bunch.

"Each plant is chopped down when its bunch is cut and given about three months in which to grow and produce another bunch. This chopping is done three or four times a year, which enables the land to continue yielding for years and years.

Enough at Home.

"I am so glad that my boy is proving so brave a little man," said grandmother, as she tucked Freddie in bed. "Why you haven't shed a tear yet over missing the pleasure cruise with father and mother and I'm proud of your courage."

Freddie said nothing at first. But after half an hour, finding that he could not go to sleep with the undeserved praise weighing on his conscience, he called grandmother to his cot.

"Granny," he said in a confidential tone, "I guess I'm not so brave after all. You see I heard Mr. Mason describing his boat to papa and after he had told all about the foreshall and mainsail and a lot of other things he said: 'Yes, I forgot—there's a spanker too! I slid out of the room, and after that I didn't care much about going cruising.'"

A girl who parades the streets in short skirts, thinks other people think she has shapely ankles.

URGES LAKE AS AID TO MANUFACTURING

Superintendent of Public Works Has Plans for Basin Near Chagrin Falls.

Cleveland, Aug. 23.—An immense water conservation plan, touching Cuyahoga, Summit, Portage and Geauga counties, has been prepared by State Superintendent of Public Works Frank Fauver at Columbus and will be recommended to Gov. Frank B. Willis and the next legislature in Supt. Fauver's annual report.

The plan contemplates an immense artificial lake lying at the intersection of the four counties, covering about seven square miles, with water from two to 50 feet deep. The lake would be situated three miles south of Chagrin Falls, running south over six miles from that point, and being located midway between Twinsburg and Aurora.

The purpose of the plan contemplated is to gather and insure an adequate supply of water for manufacturing plants in the upper Cuyahoga valley.

Supply of Water Insured.
Surveys have been made showing a large water shed to drain into the lake, an adequate supply of water being insured.

Twelve farm houses are in the area to be submerged and hundreds of acres of good trees. The tracks of the Wheeling & Lake Erie for half a mile are in the submerged area and would have to be moved to the higher level.

Only one public road would have to be abandoned. One of the main roads would be rebuilt across the submerged area, with bridges and waterways beneath.

The purpose of the state has in mind is to conserve in the lake a great storehouse of water for manufacturing institutions, the state using the canals as distributors for the water to be sold. Recognizing the end of the canal as a means of transportation, Supt. Fauver has evolved the plan of holding the sections needed to distribute water for sale and developing them to the utmost. This is the first of the big conservation plans he has worked out ready for presentation.

Plans to Sell Water.
For years the state has been working on the sale of water from the Ohio canal from Akron to Cleveland.

As the use at Akron depletes the water in the river there will be less for the state to divert at Brecksville, and the present canal supply may be endangered. For these reasons the state has been declining to make new or enlarged water contracts to its customers in the Cuyahoga valley for the past year.

By completing the new artificial lake the state would have an almost unlimited supply of water in reserve, so that it could use from the spillway into Tinkers creek enough to fill out what Akron has taken away from the canal and be able to make new and larger contracts.

Supt. Fauver has decided, since the recent survey of the canal system, that its reconstruction for transportation is impossible and would be unwarranted.

The action of Akron in corraling practically the entire outflow of the Portage lakes for its own needs makes the water situation in the upper Cuyahoga valley one of importance, and the state is firm in the opinion this is the time to start the conservation.

'LAST WAR IN 50 YEARS'

THEN THERE WILL COME LASTING PEACE TO THE WORLD, SAYS CHINESE.

Akron, O., Aug. 23.—A final test of national fitness to survive and the world's last war will come in 50 years and will eclipse the present war, according to Yee Tin Hugh of Canton, China, in Akron making a study of the rubber industry.

"From the very crucible of the last world war three states will emerge," he declared. "They will be a United States of Europe and Africa, a United States of Asia and Australia and a United States of Brazil. Then will come lasting peace," Hugh said.

Threaten to Shoot Autoists.

Springfield, O., Aug. 23.—Angered because of autoists speeding, the farmers are arming themselves with rifles and declare that they will shoot the first man who runs them off the road. A committee appeared before the county commissioners and made complaint about the way owners of automobiles were acting. They declared that it was so dangerous that their children would be unable to attend school this fall.

Girl Shoots Self.

Bellefontaine, O., Aug. 23.—Because scandalous rumors circulated an untrue report about her, Miss Elizabeth Patterson, 18, shot herself in the right temple. She may recover.

Just As Good.

Mrs. Willis—So you aren't afraid of burglars? No doubt your husband has a revolver.

Mrs. Willis—Yes; but I am so afraid of firearms that I have hidden it.

Mrs. Willis—Then what protection would you have in case of a robbery? Mrs. Willis—My dear, the way that man will roar at me when he can't find that gun will scare any burglar out of his wits!

Junk Made.

"There should be a national holiday called Junk Day, when every house, barn, shed, garage, etc., should be relieved of all its junk."

"That's right, old man, but do you realize how little there would be left of many a happy home?"

NEIGHBORHOOD NEWS

—Mrs. Susan Moffett, aged 62, is confined to her home in Leetonia suffering from broken arms and nose, the result of falling down a flight of stairs.

—Dr. Howard Harmon, who was located in Leetonia, has been sent by the U. S. government to the Philippines to serve as a doctor in the army. He ranks as first lieutenant.

—The annual reunion of the Beard family will be held at Southern park Saturday, Sept. 2. The venerable John Beard of Newton Falls, for many years a resident of Milton township, is president of the organization.

—Ravenna is after a steel plant that will manufacture steel castings and rolling mill machinery. It is hoped to finance the city and of the deal through the sale of a 50 acre farm which will be cut into building lots.

—The grist mill at Homeworth, Columbiana county, burned last Sunday morning, the fire starting from sparks from a passing locomotive. The mill was owned by Bixler & Son and had lately been remodeled, making it a 100-barrel mill. The loss is about \$15,000 with insurance of only half that sum.

—Chief of police R. R. France of Alliance, temporarily suspended last week by Mayor Westover, is charged with accepting bribes from immoral houses for protection and visiting houses of ill repute. The chief denies all the charges and says the mayor is playing politics to get rid of him.

—Dr. John A. McCorkle of Brooklyn, N. Y., died last week. Funeral services Saturday were conducted by Rev. J. M. Van Horn from the home of his sister, Mrs. S. J. Longmore, in Warren, with burial in Oakwood cemetery. Deceased was a native of Lordstown and besides the sister mentioned leaves one brother, A. J. McCorkle, of Lordstown.

—The farmer and his family who cultivate a desire for all that is beautiful and comfortable are doing much to dispel worry and trouble. And it is worry and trouble that kills. Flowers, lawns, pictures, books, magazines, easy chairs, hammocks—these all favor longevity and make you happier while you do live and cause your children to be contented with farm life—the most independent and happy life on earth.

THRIFT

No greater legacy can a parent bestow upon children than that of a teaching of thrift, the saving of money. A father may be endowed with wealth yet if the son is not taught the lesson of frugality, poverty may be his portion.

The lesson of saving is primary to financial success in life to a competency for age. A failure to inculcate this truth in the life of the youth on the part of parents is a cause of many a man and woman being forced to battle with poverty in the after years.

The need of having saved will dawn upon every man or woman sooner or later but it may be too late in the accomplishing of result and life be a failure because of it. Many a life is wrecked, many a failure noted for no other reason than this very thing.

The encouragement of youth to a bank or savings account inculcates a spirit of thrift and independence that serves well when manhood's years are attained and the battle of life for one's self must be begun.

IS LIFE A FAILURE, DO YOU KNOW WHY?

The human stomach should only be thought of when it suggests the need of food. The health of so important an organization should be so perfect that it may be entirely forgotten between meals.

But to millions of people, the stomach is a continuous source of mental as well as physical distress. Chronic stomach trouble preys upon the mind as well as the body. The mind grows dull and tired.

Especially is this true in cases of stomach trouble that affects the nerves. The woman who is always examining her tongue in the mirror, is a very pronounced type of nervous dyspeptic.

Looking at the tongue for defects of the stomach is the result of prolonged gastric disturbances; indigestion, sour stomach, bloating, heaviness, dullness, biliousness and indigestion, headaches all make sharp inroads on the nervous system.

Good strong nerves are easily forgotten. If they are weak and sensi-

tive, they are fixed in the human mind day and night.

The nervous dyspeptic shrinks from the easiest tasks of life, and is entirely unfit to grapple with the harder ones. He goes through life shackled to his imaginary fear, and failure is his doom.

"Why have I not succeeded as I would have liked to?" thousands of men and women ask themselves every day. The reason is their health and energy has been far below par.

Has your stomach been a failure or a success? The stomach is one of the deep secrets of human success. Tanlac is the stomach tonic supreme. Tanlac is vegetable. It is a stomach food, delicately adapted to the needs of a stomach that is ailing. It perfects digestion, purifies and enriches the blood and tones up the nervous system, builds up the health and strength of thin, weak, nervous, run down men and women.

Tanlac now is being specially introduced in Canfield at F. A. Morris' drug store.

PUBLIC SALE

Having decided to leave the farm, the undersigned will sell at Public Auction on the old Hendricks Homestead 3-4 mile West of Marquis and one mile East of

TOOT'S CORNERS

Tuesday, August 29, 1916

Commencing at 12 o'clock M., sharp, the following property, to-wit:

TWO HORSES

Consisting of one 5-year-old Gelding, good worker; one Sorrel Mare, 5 years old.

3 HEAD OF CATTLE

Consisting of 7-year-old Jersey Cow, 2-year-old Jersey Cow, Spring Heifer.

7 HEAD OF HOGS

One Registered Duroc Jersey Sow, due to farrow September 21; Berkshire Sow and 5 Pigs.

All Farm Implements, Wagons, Buggies, Cart, Pony Carts and Harness, Work Harness, Buggy Pole, 2 Harrows, Plow, 2x40 Tent, 20 tons good Hay in the mow, Oats by the bushel, 10 acres Corn in the field, 360-egg Cornell Incubator, Cornell Brooder, 2 Two-Horse Cultivators, Iron Kettles, Chains, etc.

Household Goods, Steel Range, 2 Heating Stoves, Bedroom Suit, and all other Furniture, Bedding and Carpets, and many other articles too numerous to mention.

Terms:—A credit of 6 months without interest will be given on sums over \$10 by giving note and approved security.

Col. S. B. Parshel, Auctioneer. J. J. HENDRICKS.

I offer my fine farm of 87 acres at private sale.
